

## CARE & MAINTENANCE

### For Ceramic & Porcelain Surfaces

Keep your tiles beautiful for years to come

Avoid supermarket or generic cleaners – they can damage grout, dull tile finishes, and strip protective sealers. For the best long-term results, use Lithofin's professional-grade care products, recommended by The Tile Shed.

**Lithofin KF Cement Residue Remover**

#### After Installation – Initial Clean

**Purpose:** Removes grout haze, cement film, and installation residues.

**Best for:** All acid-resistant ceramics, porcelain, quarry, and brick tiles.

**Use:** Dilute 1:4–1:15 with water. Apply to wet surface, scrub gently, and rinse well.

**Avoid:** Marble, limestone, zinc, enamel, and decorative finishes.

**Lithofin KF Stain-Stop**

#### Protective Treatments – Sealer

**Purpose:** Protects unglazed or polished porcelain from oil, grease, and water stains.

**Best for:** Newly laid, absorbent porcelain or ceramic tiles.

**Use:** Apply evenly to clean, dry tiles with a roller or cloth. Remove excess after 20 minutes.

**Tip:** Always test first – not all porcelains need impregnation.

**Lithofin KF Grout Protector**

#### Protective Treatments – Sealer

**Purpose:** Seals cement-based grout to resist stains and grease.

**Best for:** Kitchens, splashbacks, and bathrooms.

**Use:** Apply undiluted to clean, dry grout. Wipe away residue after 20 minutes.

**Maintain:** Reapply every 1–2 years.

**Lithofin KF Vitra-Clean**

#### Everyday Cleaning Regular Maintenance

**Purpose:** Gentle, streak-free daily cleaner that also maintains tile finish.

**Best for:** All porcelain and ceramic tiles.

**Use:** Add a small squirt to 10 L of water, mop, and allow to dry.

**Bonus:** Builds protection and sheen with continued use.

**Lithofin KF Intensive Cleaner**

#### Deep Cleaning Heavy Soiling or Build-Up

**Purpose:** Removes grease, wax, and stubborn grime.

**Best for:** High-traffic or commercial areas.

**Use:** Dilute 1:10, scrub lightly, let sit 10–20 mins, and rinse thoroughly.

**Avoid:** Polished marble and alkali-sensitive materials.

**Lithofin KF Active-Clean**

#### Bathroom Care

**Purpose:** Dissolves calcium, lime, rust, soap scum, and grease.

**Best for:** Bathrooms, showers, glass, chrome, and grout.

**Use:** Dilute 1:15 for regular use or apply neat for stubborn deposits. Rinse well.

**Avoid:** Marble, limestone, and enamel.

**Lithofin KF Mildew-Away**

#### Mould & Mildew Control

**Purpose:** Kills and prevents mould and mildew growth.

**Best for:** Showers, wet rooms, and silicone joints.

**Use:** Spray 15–20 cm away, leave for 10–20 mins, scrub and rinse.

**Avoid:** Metal surfaces, fabrics, or combining with other cleaners.

**Lithofin KF HyClean Spray**

#### Benchtop & Surface Care

**Purpose:** Ready-to-use cleaner for daily care of ceramic and sintered stone benchtops.

**Best for:** Kitchen counters, tabletops, and vanities made from ceramic, porcelain, or Dekton-style materials.

**Use:** Spray, wait briefly, then wipe with a damp cloth and towel dry if needed.

**Lithofin MN Easy-Clean**

#### Benchtop & Surface Care

**Purpose:** Everyday cleaner for natural stone, quartz, or composite benchtops that maintains protective sealers like MN Stain-Stop.

**Best for:** Kitchen and bathroom surfaces made of marble, limestone, granite, or engineered stone.

**Use:** Spray directly onto the surface, let work briefly, and wipe with a soft cloth; buff dry if needed.
