Tavola Tile Range

Tavola

FLOOR & WALL TILES

Available in 4 warm timber-tones, The Tavola range offers a cozy and welcoming atmosphere in any room.

This look features rectified edges as well as natural pattern variation to replicate natural wooden planks.

Made of quality porcelain and finished to require no surface sealing - this is as good as it gets. No marks or dents that would normally affect natural wood, great for wet areas and suitable for high UV light, it won't fade or shrink.

Can be used on walls and floors and with under floor heating.

Tavola Chiara
